

There is new-this-week construction on HWY 58 between I-5 and the Covered Bridge:

- Shoulder closures.
- Single lane closures weekdays between 6 a.m. - 7 p.m. with flagging.
- Up to three work zones.
- Potential delays up to 20 minutes.

We don't yet have experience on how much this will slow you down – although it doesn't look too bad. An alternative route (especially from the north) is:

From I-5, head east on OR-126 E (N Springfield)

After 6.3 miles, continue straight onto Bob Straub Pkwy

Keep going "straight" as the route becomes OR-222 then Jasper Rd then Jasper/Lowell Rd and finally straight onto Pengra Rd for 12 miles (from the start of Bob Straud)
